Max Flow Rate GPM	25	50	100	200	400	600	800	1200	1600	2000	2400	2800	3200	3600	4000	4400	4800

NOTE: The maximum flow rate GPM is the MAXIMUM FLOW RATE recommended through the vessel WITHOUT filter bags installed using water viscosity. Any increase in fluid viscosity, or installation of filter bags, will reduce the maximum GPM figures significantly. Please see flow-rate-pressure data charts.
